## MASONIC FORGING AHEAD.

Now Enjoying a Steady and Permanent Growth.

Things up Masonic way are booming these days according to reports from that camp. Several new strikes have been made during the past week and there is a steady influx of people from other camps and districts. The townsite is booming and there are three hotels, saloons and other places to satisfy. The telephone line is also being run from Wellington to the camp and the wires are now within eleven miles of the place. Among the good strikes reported during the last several days, the one of Sam Smith, Batchelor and Logan on the Red Rock appears to be the best. The ore is high-grade, running over \$1000 and according to reports there is about three feet of the ledge. A good strike has also been made on the True Friend property the company catching a big ledge of \$31 ore which has several streaks of high grade which will run considerably higher. Tarvis & Pierce have also begun work on the old Home View property, the development outlined being the greatest yet planned in the camp.

The Pittsburgh-Liberty company has accepted the new Brougher mill and within a few days work will begin handling the ores there. The company has also elected the following officers: President, John S. Phillips; secretary, J. W. Harris; directors, John S. Phillips, J. M. Bryan, Caleb Dorsey, Wills Brougher and W. H. Paul. The directors highly commended Jas. T. Shaw of this city, who has been secretary of the company for some time. Mr. Shaw will devote his entire time to several of the other companies of the Masonic district in which he is interested, but will also keep his interest in the Pittsburgh-Liberty.

"Masonic is striding to the front with certain and gigantic steps," remarked Senator Campbell, who arrived in the city yesterday from that camp, where he had been to look after his interests there. "The Pittsburgh-Liberty mill erected by Wills Brougher is now practically complete and within a few days the hauling of ore to the mill will begin. Then Masonic will be in the list of big producers; at present our only shipments consist of high grade, but soon the bullion will be turned out. The team will not be put in at present, as the management is not certain the working shaft will be kept in its present position."

"A good strike has been made on the Red Rock property by Sam Smith, he having caught a ledge running from twenty to thirty inches and which assays from \$1000 to \$1200. The Masonic Mountain Company has also made a good strike on the True Friend group."

Mr. Campbell left last evening for Winnemucca, where he expects to open an office and practice law. He is a native of Denver and owing to his extensive interests in this State and the opportunities offered will locate in Nevada.—Carson City News.

## THE USEFUL WIFE.

"Does Jones think he's any better off since he got married?"

"Yes," he says, "he has some one to thread his needle now when he wants to sew on a button."—Judge.

## FORCE OF HABIT.

"I declare I never saw such a fellow. He is always cutting up."

"But, then, you must remember he is a medical student."—Baltimore American.

## PASTOR ON TRIAL FOR IMMORALITY

LINCOLN, Neb., Sept. 26.—The trial of the Rev. Wilbert P. Ferguson, former pastor of University Place, on charges of immorality, began at St. Paul's Methodist church this morning before a jury of thirteen Nebraska ministers.

Ferguson is charged with improper conduct with Mrs. E. A. Cross of University Place, who is the principal witness for the prosecution. Mrs. Cross has lately returned from Granada, Colo., where her parents reside.

The counsel for the prosecution are Chancellor Huntington of Wesleyan University, G. W. Isham and A. A. Randall of Lincoln, and J. R. Smith of Omaha. The counsel for the defense are John Gallagher of Fairmont, Neb., P. C. Johnson of Lincoln, D. W. Couch of New York City, Matt S. Hughes of Kansas City and John C. Ferguson of Boston.

The first charges were filed with the presiding elder of this district on July 1, and the official investigation took place July 16. The Rev. Mr. Ferguson was suspended from the ministry pending the action of this conference. He formerly was pastor of fashionable churches in Los Angeles and Newark, N. J.

Mrs. Cross had begun to relate her relations with the pastor, when pastor's counsel interposed an objection. Mrs. Cross was temporarily excused.

## JAP MINERS BARRED.

Coolies Rounded Up in Atlin District and Deported.

SEATTLE, Sept. 26.—Fifty-seven Japanese coolies were rounded up and driven from the Atlin district last night by 200 white miners. Atlin is in British Columbia and the drastic measures employed by the miners has greatly surprised the authorities. According to the meager telegraphic details of the affair, the Japanese were driven aboard the steamer Gleaner, whose officers were told that they had to ship the Japanese out of the country at once. The demand was complied with, and the Japanese are expected to reach Skagway from White Horse, where they will be conveyed by steamer some time tonight.

## SATISFACTORY RUN.

## Start of the Golddyke Reef Mill to Test Machinery.

According to a letter received from Superintendent Heath, the Golddyke Reef mill at Golddyke, Nye county, Nevada, was started on a preliminary trial to test the machinery and see that everything is in working order. The new hoisting plant has been in operation about ten days and started off successfully. The new mill will not begin to crush ore at its full capacity until the 10th when the power drills will be in place. From that time on the mill will be turning out bullion.

The Golddyke Reef mill is expected to demonstrate a tonnage capacity of between 50 and 70 tons daily. Including the hoisting works the plant cost \$32,000; and is a model mill in every respect. The mill contains twin boilers of 20-horsepower, united capacity, two engines, one 40 horsepower Erie engine driving the mill, and one 22-horsepower Leffel high speed engine driving a 15 kilowatt generator. This generator operates a Knowles triplex pump at the 200-foot level, a blower, two Jeffrey electric power drills, and lights the mill and mine.

The crushing plant consists of a Dodge rock breaker and two five-foot improved overhead Huntingtons. From the Huntingtons the pulp passes over two plates, each four feet by sixteen feet, and thence over two Wilfrey concentrating tables. There are two 25,000 gallon tanks in the mill system of Callows water-saving tanks, designed by Callows, of Salt Lake, to economize the water supply.

The hoisting works are equipped with a 50-horsepower double reel steam hoist, 40-foot galloways frame, single deck cage, and balance weight to counterbalance the weight of the cage and an unloaded car.

The Golddyke Reef mine, of which C. A. Norcross of Reno is president and the controlling spirit, is situated sixty miles northwest of Tonopah. The mine was purchased for 25,000 while it was in the prospect stage. It has been developed since with a total of 470 feet of shafts and over 1200 feet of drifts and crosscuts at the first and second levels. At the 200-foot level, which is the 300-foot level of the vein, on the dip the ore body is fifty-six feet wide. The ore is perfectly free milling and the values entirely in gold. A high extraction is expected. While the big reef contains some high grade ore the great body is low grade, but with values sufficient to pay handsomely. The average of hundreds of assays taken from the 200 level across the

entire width of the vein shows nearly \$6 a ton in free gold.

The ore is a soft friable siliceous porphyry. Both Mr. Norcross and Superintendent Heath are confident that with power drills such as are being installed the ore can be mined and milled at a total cost of less than \$3 a ton.

The present mill is so arranged that at a small additional expense the tonnage capacity can be doubled, and this will likely be done at an early date if the mill works as successfully as expected.—Western Nevada Miner.

## CONFISCATION.

If the grocer charges you  
Quite a bit for just a few,  
Tell him without hesitation  
That it's really confiscation.

When the butcher man would take  
All your dough for just a steak,  
Use then no tergiversation—  
Tell him that it's confiscation.

When the landlord for the rent  
Takes from you your final cent,  
Crush him with your condemnation  
Saying that it's confiscation.

When you're buying coal or ice,  
And the trusts put up the price  
Till it's out of all relation  
To the goods, cry "Confiscation!"

Maybe if you make a bluff  
As some others, strong enough,  
With regard to legal style  
You can stand 'em off awhile.

—Indianapolis News.

## DEATH OF PIONEER.

RENO, Sept. 26.—Reuben Geise died at his home in this city at 4 o'clock yesterday afternoon. Death was due to sclerosis of the liver. The deceased was a native of Pennsylvania, aged 70 years. He leaves some property to his widow, who is the sole survivor.

Geise was one of the very oldest residents of this city. Coming west in the early pioneer days, he took up his abode here when Reno was but a hamlet. With the foresight of the pathfinder, however, he waited while a big city grew up around him. He was known extensively about the State, and he was respected and beloved by all who knew him.
